

Intermediate Beekeeping
Intermediate Beekeeping for the South Islands of BC
Tuesday, March 3, 2026 at 7:00 pm
Fee: Course - **\$255.00**

Location: Webinar format from your home
You will need a computer and internet access to join the class
Notes available on-line as a PDF file, Theory only

Presented by Barry Denluck:

Barry has been a beekeeper in the Victoria area for 25 plus years and avid gardener for more than 30 years. He is an accredited Bee-Master and BCHPA certified instructor.

Course Requirement:

For this course it is expected that the beekeeper have at least 1 year but preferably 2 years of experience.

Course Description:

This intermediate beekeeping course offers participants theory only. The course is comprised of 5 evening class room sessions of 2 ½ hrs each for a total of 12.5 hrs. Support by website, text or email is included for one season. On-site consulting services available for a fee.

Course Objective:

This course is intended to enhance your beekeeping knowledge and practices. The intermediate beekeeper should have a thorough understanding of the yearly cycle of bee management within the local climate of the South islands.

Curriculum:

- Review of beekeeping essentials
 - History of beekeeping, The honeybee society, Honey bee physiology
 - Health and wellness of a honey bee colony
- Spring buildup of the colony
 - Supplemental feeding, Managing brood chamber, maximizing development
 - Hive requirements from a bees perspective as a supra-organism
 - Pest management, mites, wasps and others
 - Pathogen management, fungi, bacteria and viruses
- Summer bees
 - Swarm management, Honey harvesting and marketing
- Fall management
 - Preparing for winter, Colony strength and Bee health
 - Pest and Pathogen management
- Winter management
 - Monitoring, Supplemental feeding and much more
 - Assessment of a failed colony
 - Q and A
